Success on Thrush Lane

A footway resurfacing scheme has been completed recently by sub-contractor Gavigans on Thrush Lane in Cuffley. The work is of such high quality it has attracted compliments from a member of the public, a County Councillor and the Highways Locality Officer for Mid-Hertfordshire.

Local resident John Miner complimented the works, saying “as a resident, we have recently benefitted from the complete resurfacing of our pavements. This work has greatly enhanced both the safety and appearance of the road”.

County Councillor for Hatfield Rural Mark Mills-Bishop added “I must also thank the contractors”.

HLO Tim Burt adds “I have to say this is one of the best quality footway jobs I have seen for some time”.
